

CLASSIFICATION GRIDS

M.L.C. / Abattoir Carcass Classification sheets are always sent to the producer. This means that date of slaughter, weight and grade of sheep sold can be verified. The information is sent by email as soon as Meadow Quality receives it.

M.L.C. and abattoir levies are charged exactly as per abattoir.

Specifications

Meadow Quality continually works with producers to ensure that lambs meet processors specifications. For more information and advice please ask your local Livestock Marketing Specialist.
